MOTHER AGAINST DAUGHTER

MRS. CHARLES J. HOLMAN AND HER DAUGHTER, MRS. EVELYN THAW
Two views are given of the mother-in-law of Harry Thaw, who declares she will "tell all she knows" against the slayer of Stanford White at the coming trial. The two lower pictures are of Evelyn Nesbit Thaw.

TRIAL OF HARRY THAW

PREFECT OF CZAR'S CAPITAL SLAIN TO-DAY

GENERAL VONDERLOUNT ASSASSINATED IN ST. PETERSBURG STREET.

ST. PETERSBURG, Jan. 3.—Major General Vonderlount, prefect of the city, was assassinated today while driving through the city.

\$500,000 STOLEN GEMS FOUND IN PULLMAN

By Boston American Leased Wire.
RAYNHAM, (S. J. A. 3.)—A safe containing jewelry valued at \$500,000 was brought to Raynham today by Conductor T. H. Adams of the Atlantic Coast line. The jewels were over to the Atlantic Coast line representative, who will receive it to the Boston and Maine Railroad. The jewels were taken from the Pullman car in which they were being transported. The jewels were taken from the Pullman car in which they were being transported. The jewels were taken from the Pullman car in which they were being transported.

PUZZLE IN TRAGEDY OF HARVARD INSTRUCTOR

By Boston American Leased Wire.
The Harvard authorities, the police and all relatives and friends of the unfortunate instructor, who is supposed to have been committed suicide by shooting in a private parlour in Belmont. The Harvard authorities, the police and all relatives and friends of the unfortunate instructor, who is supposed to have been committed suicide by shooting in a private parlour in Belmont.

Mrs. Holman Declares Her Intention of Standing by Dead Architect as Witness in Roof Garden Tragedy—Mother of Evelyn Nesbit Hints at Damaging Testimony When She Takes the Stand in Trial for Roof Garden Death.

By Boston American Leased Wire.
NEW YORK, Jan. 3.—"Nothing on earth can prevent me from testifying when I am called upon at the trial of Harry Thaw. I shall certainly tell the truth even if Thaw does happen to be my daughter's husband, and I shall tell all I know, and I know much."

Mrs. Charles J. Holman, mother of Evelyn Nesbit Thaw, in making this statement to the BOSTON AMERICAN today through its Pittsburg representative, made it clear that Harry Kendall Thaw's old enemy will be the most implacable and dangerous foe he will have to contend against in his fight for his life, to begin in two weeks. "NO REASON TO BE JEALOUS," the stage. That is another lie. My one thought is to do my duty and tell the truth. And it was in this that Mrs. Thaw helped me. She never spoke to me as if she were my enemy. She was always as good as my mother. And she was always as good as my mother. And she was always as good as my mother.

The Piano and Organ Column

of the AMERICAN shows more advertising lines in a month than are run under the same classification in any New England newspaper. A visit to the advertiser discloses the reason. One of them said he received more replies from his ad. in the AMERICAN than from all other papers in which he advertised combined.

If you want to sell your piano send your ad. to the AMERICAN, 80 Summer St., and sell it quick.

To Protect Officials and Plant Armed Men GUARD HUB FACTORY

Boylston Manufacturing Company. Backed by H. H. Rogers, Forced to Act by Attacks. Assaults on Chiefs of Concern and 31 Mysterious Fires Result in Campaign of Protection.

Because of a series of assaults upon its officials and attempts to destroy its plant at Nos. 253 and 255 A street, South Boston, the Boylston Manufacturing Company has filled its factory with armed guards and has hired a corps of detectives to run every close to earth. One big fire and thirty small ones in the record to date. Three times men high in the management of the concern have set upon and beaten.

Record of the Attacks.
A fire that did more than \$150,000 worth of damage took place in the building of the Boylston Manufacturing Company on the evening of September 26, 1905, a few months after the big enterprise was started in South Boston. President William A. Copeland of the company, early last August, was attacked in a noisy spot near the factory and roughly used. Manager George H. Noble in September was attacked near the door of the factory. The investor Harry Ballard of the company was set upon and badly beaten in Melrose street, last month. One in the building was thrown on the ground, and an explosion was set off.

Governor Higgins's Protest Against "Boss" Brayton

ONE man alone does practically all the lobbying in the Rhode Island Legislature. And to facilitate the carrying on of his corrupt practice, in past years he has been established permanently with full equipment in the High Sheriff's office, within this very State Capitol. This is a condition of affairs which has been tolerated as long as it should be. The welfare of our State preposterously demands vigorous and prompt action on this matter, action which will result in keeping from within these walls lobbyists like the above described—one declared by my respected predecessor to be a menace to the State of Rhode Island.—From Annual Message to Legislature of Governor Higgins of Rhode Island.

opened GAS JETTS.
The factory is at Nos. 253 and 255 A street, South Boston, not far from the South Station. Two buildings are occupied and about 800 hands employed. The factory is at Nos. 253 and 255 A street, South Boston, not far from the South Station. Two buildings are occupied and about 800 hands employed.

An Employer Should Treat Girls as He Would His Sisters

By Dorothy Dix

It is the third in a series of articles by Dorothy Dix on "How Men Should Treat Girls They Employ." Every business man should read this interesting series.

First piece of advice to the man who employs female labor is, Don't expect to get more than you are giving. Don't begrudge the girl her wage. My third is: Treat the girl who works for you as you would want your sister to be treated by her employer.

Many Fair Men

There are many men who think that a girl is a creature of the moment, and that she will be as good as dead when she is married. They are wrong.

Need of Chivalry

Never on earth was there such a need for chivalry as there is now. The girl who is the play of it is that she is a creature of the moment.

Continued From First Page.

going through a hallway and smelled the gas. He made an investigation without a lantern. Then he sent in a fire alarm. Before the flames reached the factory Corbett had darted into the gas-filled passage and shut off the gas. The flames found him screaming.

JUMPED ON IN STREET.

Supposedly looking nervous, it was learned, had been lurking near the factory for some time. This took place just after Manager Noble took a drive trip to Mexico. This trip was known to but very few people. President Corbett was attacked on Melrose street. This is the route traveled by the factory employees. Mr. Corbett received some very hard blows, but nothing of a serious nature came out of the encounter.

Manager Noble was held up near the factory. He was carried to the street, but he was not injured. He was only a foreigner, said the inventor. He had his experience. Several people looking on jumped on him in Melrose street. He was severely cut about the face and head. He had to call a physician to dress his wounds, and he has not yet recovered.

The men are employed as guards, but at night they are on duty. They are armed with revolvers and shotguns. They have been granted permission for the carrying of these weapons. They have been granted permission for the carrying of these weapons. They have been granted permission for the carrying of these weapons.

When I was attacked I received several blows, but I am still alive. I am still in good health, but I am still in good health. I am still in good health, but I am still in good health.

IN FIGHT TO FINISH. The men are on duty. They are armed with revolvers and shotguns. They have been granted permission for the carrying of these weapons.

THE VALUE OF CHARCOAL. Few People Know How Useful It is in Preserving Health and Beauty.

Costs Nothing To Try. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleaning purpose.

Charcoal is a remedy that the more you use of it the better it is. It is a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectively cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the infusions which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in the stomach and bowels, and to clear the complexion and purify the breath, throat and throat." "I believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some cases a patient may be troubled with indigestion, yet I believe I get more benefit from charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Send your name and address today for a trial box of Stuart's Charcoal Lozenges. A. Stuart Co., Stuart, Mass., U.S.A.
